Dear Tushar,

Congratulations on receiving a 2017 CFA Institute Access Scholarship award.

This is a reminder that your scholarship award will expire on 15 July 2017, and it is your responsibility to register for the exam of your choice prior to this expiration date. The CFA Program June 2017 exam registration deadline is 15 March 2017 and you should register with your scholarship prior to that deadline. Levels I, II, and III of the CFA Program exam are offered in June. However, if you plan to register for the December 2017 exam, you should register prior to the expiration of your scholarship award which is 15 July 2017. Note that the December 2017 exam registration deadline for Access Scholarship recipients is earlier than the published registration deadline because of the scholarship expiration date. Only the Level I exam is offered in December.

There are no extensions after the scholarship expiration date of 15 July 2017. Remember, if you register, you must sit for your selected exam in 2017 or you may be ineligible for future Access Scholarships.

Exam Registration details and deadlines:

Steps to register:

- Log in to your CFA Institute account to [Enroll/register](#) for your exam. You will need a valid international travel passport. If you need assistance logging into your account, please [contact us](#).
- Provide payment as requested to complete your registration/enrollment process. Access Scholarship awards reduce the CFA Program enrollment and exam registration fees to US\$250, which includes the CFA Program eBook. The reduced scholarship fee will be reflected in your account during the payment process. All CFA Program candidates may purchase the print curriculum for an additional cost of US\$150 plus shipping, applicable taxes, and import duties. Please check [custom and shipping costs](#) prior to purchase.

Congratulations again, and good luck in your pursuit of the CFA charter.

Please contact us if you have any questions or concerns.

Kind regards,

CFA Institute Global Scholarships Administration
